Note:

Massage Law. In order to practice legally in those states with a massage law and no exemption, reflexology is often licensed under massage through the broad definition of massage contained in the law. Reflexologists will need to check with the Massage Board and its Rules and Regulations to determine if reflexology is covered and abide accordingly.

Where reflexology is exempt from the state massage law the reflexologist must abide by local rules and regulations of the city or county and have a license to do business.
